

## Fishery Conservation and Management

## § 648.53

from January 1, 1988, through December 31, 1994, has an engine horsepower no greater than 450.

[69 FR 35215, June 23, 2004, as amended at 69 FR 63473, Nov. 2, 2004; 71 FR 33226, June 8, 2006; 72 FR 8288, Feb. 26, 2007; 72 FR 32558, June 13, 2007; 73 FR 20122, Apr. 14, 2008]

### § 648.52 Possession and landing limits.

(a) A vessel issued an IFQ scallop permit that is declared into the IFQ scallop fishery as specified in § 648.10(b), unless exempted under the state waters exemption program described under § 648.54, may not possess or land, per trip, more than 400 lb (181.4 kg) of shucked scallops, or possess more than 50 bu (17.6 hL) of in-shell scallops shoreward of the VMS Demarcation Line. Such a vessel may land scallops only once in any calendar day. Such a vessel may possess up to 100 bu (35.2 hL) of in-shell scallops seaward of the VMS demarcation line on a properly declared IFQ scallop trip.

(b) A vessel issued an NGOM scallop permit, or an IFQ scallop permit that is declared into the NGOM scallop fishery as described in § 648.62, unless exempted under the state waters exemption program described under § 648.54, may not possess or land, per trip, more than 200 lb (90.7 kg) of shucked, or 25 bu (8.81 hL) of in-shell scallops. Such a vessel may land scallops only once in any calendar day. Such a vessel may possess up to 50 bu (17.6 hL) of in-shell scallops seaward of the VMS demarcation line on a properly declared NGOM scallop fishery trip.

(c) A vessel issued an Incidental scallop permit, or an IFQ or NGOM scallop permit that is not declared into the IFQ or NGOM scallop fishery as required under § 648.10(b)(4), unless exempted under the state waters exemption program described under § 648.54, may not possess or land, per trip, more than 40 lb (18.1 kg) of shucked, or 5 bu (1.76 hL) of in-shell scallops. Such a vessel may land scallops only once in any calendar day. Such a vessel may possess up to 10 bu (3.52 hL) of in-shell scallops seaward of the VMS demarcation line.

(d) Owners or operators of vessels with a limited access scallop permit that have properly declared into the Sea Scallop Area Access Program as

described in § 648.60 are prohibited from fishing for or landing per trip, or possessing at any time, scallops in excess of any sea scallop possession and landing limit set by the Regional Administrator in accordance with § 648.60(a)(5).

(e) Owners or operators of vessels issued limited access permits fishing in or transiting the area south of 42°20'N. lat. at any time during a trip are prohibited from fishing for, possessing, or landing per trip more than 50 bu (17.6 hL) of in-shell scallops shoreward of the VMS Demarcation Line, unless when fishing under the state waters exemption specified under § 648.54.

(f) A vessel that is declared into the Elephant Trunk Access Area Sea Scallop Area Access Program as described in § 648.60, may not possess more than 50 bu (17.6 hL) of in-shell scallops outside of the Elephant Trunk Access Area described in § 648.59(e).

[73 FR 20122, Apr. 14, 2008]

### § 648.53 Total allowable catch, DAS allocations, and Individual Fishing Quotas.

(a) *Target total allowable catch (TAC) for scallop fishery.* The annual target total TAC for the scallop fishery shall be established through the framework adjustment process specified in § 648.55. The annual target TAC shall include the TAC for all scallop vessels fishing in open areas and Sea Scallop Access Areas, but shall exclude the TAC established for the Northern Gulf of Maine Scallop Management Area as specified in § 648.62. After deducting the total estimated incidental catch of scallops, as specified at § 648.53(a)(9), by vessels issued incidental catch general category scallop permits, and limited access and limited access general category scallop vessels not declared into the scallop fishery, the annual target TAC for open and Sea Scallop Access Areas shall each be divided between limited access vessels, limited access vessels that are fishing under a limited access general category permit, and limited access general category vessels as specified in paragraphs (a)(3) through (a)(6) of this section. In the event that a framework adjustment does not implement an annual TAC for a fishing or part of a fishing year, the

preceding fishing year's scallop regulations shall apply.

(1) *2008 fishing year target TAC for scallop fishery.* 20,140 mt, 90 percent of which will be allocated to the limited access fishery, and 10 percent of which will be allocated to the general category fishery.

(2) *2009 fishing year target TAC for scallop fishery.* 20,820 mt, 94.5 percent of which will be allocated to the limited access fishery, 5 percent of which will be allocated to IFQ scallop vessels, and 0.5 percent will be issued to limited access vessels also issued IFQ scallop permits and that are fishing under general category regulations. If the IFQ program is delayed beyond March 1, 2009, as specified at paragraph (a)(7) of this section, 90 percent of the TAC will be allocated to the limited access fishery, and 10 percent of the TAC will be allocated to the general category fishery.

(3) *Access area TAC.* The TAC for each Access Area shall be determined through the framework adjustment process described in § 648.55 and specified in § 648.59. The TAC set-asides for observer coverage and research shall be deducted from the TAC in each Access Area prior to assigning the target TAC and trip allocations for limited access scallop vessels, and prior to allocating TAC to limited access general category vessels. The percentage of the TAC for each access area allocated to limited access vessels, limited access general category vessels, and limited access vessels fishing under general category permits shall be specified in accordance with § 648.60 through the framework adjustment process specified in § 648.55.

(4) *Open area target TAC for limited access vessels.* The open area TAC specified in this paragraph (a)(4) excludes the open area DAS set-aside specified in (g)(1) and (2) of this section, the access area TACs specified in § 648.59, and access area set-asides specified in § 648.60(d) and (e).

(i) *2008 fishing year.* For the 2008 fishing year, the target TAC for limited access vessels fishing under the scallop DAS program specified in this section shall be 6,274 mt.

(ii) *2009 fishing year.* For the 2009 fishing year, the target TAC for limited access vessels fishing under the scallop

DAS program specified in this section shall be 7,458 mt., unless the implementation of the IFQ program is delayed beyond March 1, 2009, as specified in paragraph (a)(7) of this section.

(5) *Open area TAC for IFQ scallop vessels.* The open area TAC specified in this paragraph (a)(5) excludes the access area TACs specified in § 648.59, and access area set-asides specified in § 648.60(d) and (e).

(i) *2008 fishing year.* For the 2008 fishing year, IFQ scallop vessels, and limited access scallop vessels that are fishing under an IFQ scallop permit outside of the scallop DAS and Area Access programs, shall be allocated 1,369 mt.

(ii) *2009 fishing year and beyond for IFQ scallop vessels without a limited access scallop permit.* For the 2009 fishing year, unless the implementation of the IFQ program is delayed beyond March 1, 2009, as specified in paragraph (a)(7) of this section, the TAC for IFQ scallop vessels without a limited access scallop permit shall be 536 mt.

(iii) *2009 fishing year and beyond for IFQ scallop vessels with a limited access scallop permit.* For the 2009 fishing year, unless the IFQ program is delayed beyond March 1, 2009, as specified in paragraph (a)(7) of this section, limited access scallop vessels that are fishing under an IFQ scallop permit outside of the scallop DAS and Area Access programs shall be allocated 0.5 percent of the annual target TAC specified in accordance with this paragraph (a) minus the TAC for all access areas specified in accordance with paragraph (a)(3) of this section. If the IFQ program implementation is delayed beyond March 1, 2009, the allocation of TAC to IFQ scallop vessels is specified in paragraph (a)(7) of this section.

(6) *Northern Gulf of Maine Scallop Fishery.* The TAC for the Northern Gulf of Maine Scallop Fishery shall be specified in accordance with § 648.62, through the framework adjustment process specified in § 648.55. The Northern Gulf of Maine Scallop Fishery TAC is specified in § 648.62(b)(1).

(7) *Delay of the IFQ program.* If the IFQ program implementation is delayed beyond March 1, 2009, the quarterly fleetwide TAC will remain in effect. Under such a scenario, the overall

## Fishery Conservation and Management

## § 648.53

IFQ fishery allocation of 4,551,700 lb (2,065 mt) will be distributed as follows: Quarter 1—1,593,095 lb (723 mt); Quarter 2—1,820,680 lb (826 mt), Quarter 3—682,755 lb (310 mt), Quarter 4—455,170 lb (206 mt). If the Regional Administrator determines that the IFQ program cannot be implemented by March 1, 2009, NMFS shall inform all scallop vessel owners that the IFQ program shall not take effect.

(8) *Distribution of transition period TAC*—(i) *Allocation*. For the 2008 fishing year, and subsequent fishing years until the IFQ program is implemented as specified in paragraph (a)(7) of this section, the TAC for IFQ scallop vessels shall be allocated as specified in paragraphs (a)(5) of this section into quarterly periods. The percentage allocations for each period allocated to the IFQ scallop vessels, including limited access vessels fishing under an IFQ scallop permit and vessels under appeal for an IFQ scallop permit pursuant to § 648.4(a)(2)(ii) shall be specified in the framework adjustment process as specified in § 648.55 and are specified in the following table:

Quarter	Per- cent	TAC
I. March–May .....	35	1,523,375 lb (475.25 mt).
II. June–August .....	40	1,741,000 lb (547.83 mt).
III. September–November	15	652,875 lb (205.39 mt).
IV. December–February	10	435,250 lb (136.93 mt).

(ii) *Deductions of landings*. All landings by general category scallop vessels prior to July 1, 2008, and all landings by IFQ scallop vessels and limited access vessels fishing under an IFQ scallop permit after June 30, 2008, shall be deducted from the TAC allocations specified in the table in paragraph (a)(8)(i) of this section.

(iii) *Closure of fishery for the quarter*. No vessel issued an IFQ scallop permit, or vessel issued a temporary letter of authorization to fish for scallops while their appeal for an IFQ scallop permit is pending pursuant to § 648.4(a)(2)(ii), may possess, retain, or land scallops once the Regional Administrator has provided notification in the FEDERAL REGISTER that the scallop total allowable catch for the specified quarter, in accordance with this paragraph (a)(8) has been reached.

(iv) *Overages and underages of quarterly TACs*. Any overage or underage of catch during quarter 1 as specified in this paragraph (a)(8) shall be applied to the third quarter TAC as specified in this paragraph (a)(8). Any overage or underage of catch during quarters 2 and 3, as specified in this paragraph (a)(8), shall be applied to the fourth quarter TAC as specified in this paragraph (a)(8).

(9) *Scallop incidental catch target TAC*. The 2008 and 2009 incidental catch target TACs for vessels with incidental catch scallop permits are 50,000 lb (22,680 kg) per year.

(b) *DAS allocations*. (1) Total DAS to be used in all areas other than those specified in § 648.59, shall be specified through the framework adjustment process as specified in § 648.55, using the target total allowable catch for open areas specified in paragraph (a) of this section, and estimated catch per unit effort.

(2) Prior to setting the DAS allocations specified in paragraph (b)(4) of this section, 1 percent of total available DAS will be set aside to help defray the cost of observers, as specified in paragraph (h)(1) of this section. Two percent of total available DAS will be set aside to pay for scallop related research, as outlined in paragraph (h)(2) of this section.

(3) *Assignment to DAS categories*. Subject to the vessel permit application requirements specified in § 648.4, for each fishing year, each vessel issued a limited access scallop permit shall be assigned to the DAS category (full-time, part-time, or occasional) it was assigned to in the preceding year, except as provided under the small dredge program specified in § 648.51(e).

(4) Each vessel qualifying for one of the three DAS categories specified in the table in this paragraph (b)(2) (Full-time, Part-time, or Occasional) shall be allocated the maximum number of DAS for each fishing year it may participate in the open area limited access scallop fishery, according to its category. A vessel whose owner/operator has properly declared out of the scallop DAS fishery, pursuant to the provisions of § 648.10, including vessels that have used up their maximum allocated

DAS, may leave port without being assessed a DAS, as long as it has made appropriate VMS declaration as specified in §648.10(b)(4), possesses, fishes for, or retains the amount of scallops allowed by its general category permit, does not possess, fish for, or retain any scallops if the vessel does not have a general category scallop permit, and complies with all other requirements of this part. The annual open area DAS allocations for each category of vessel for the fishing years indicated, after deducting DAS for observer and research DAS set-asides, are as follows:

DAS category	2008	<sup>1</sup> 2009
Full-time .....	35	42
Part-time .....	14	17
Occasional .....	3	3

<sup>1</sup> If the IFQ program implementation is delayed beyond March 1, 2009, the 2009 DAS allocations will be: Full-time—37; part-time—15, occasional—3.

(i) Limited access vessels that lawfully use more open area DAS in the 2008 fishing year than specified in this section shall have the DAS used in excess of the 2008 allocation specified in this paragraph (b)(4) deducted from their 2009 open area DAS allocation specified in paragraph (b)(2) of this section.

(ii) [Reserved]

(5) *Additional open area DAS.* If a TAC for yellowtail flounder specified in §648.85(c) is harvested for an Access Area specified in §648.59(b) through (d), a scallop vessel with remaining trips in the affected Access Area shall be allocated additional open area DAS according to the calculations specified in paragraphs (b)(5)(i) through (iii) of this section.

(i) For each remaining complete trip in the Nantucket Lightship Access Area, a full-time and part-time vessel may fish an additional 7.7 DAS in open areas and an occasional vessel may fish an additional 3.2 DAS during the same fishing year. A complete trip is deemed to be a trip that is not subject to a reduced possession limit under the broken trip provision in §648.60(c). If a vessel has unused broken trip compensation trip(s), as specified in §648.60(c), when the Nantucket Lightship Access Area closes due to the yellowtail flounder bycatch TAC, it will be issued additional DAS in proportion to the unharvested possession limit. For ex-

ample, if a full-time vessel had an unused 9,000-lb (4,082-kg) Nantucket Lightship Access Area compensation trip (half of the possession limit) at the time of a Nantucket Lightship Access Area yellowtail flounder bycatch TAC closure, the vessel will be allocated 3.85 DAS (half of 7.7 DAS).

(ii) For each remaining complete trip in Closed Area II, a full-time and part-time vessel may fish an additional 7.9 DAS in open areas and an occasional vessel may fish an additional 3.3 DAS during the same fishing year. A complete trip is deemed to be a trip that is not subject to a reduced possession limit under the broken trip provision in §648.60(c). If a vessel has unused Closed Area II broken trip compensation trip(s), as specified in §648.60(c), when Closed Area II closes due to the yellowtail flounder bycatch TAC, it will be issued additional DAS in proportion to the unharvested possession limit. For example, if a full-time vessel had an unused 9,000 lb (4,082 kg) Closed Area II compensation trip (half of the possession limit) at the time of a Closed Area II yellowtail flounder bycatch TAC closure, the vessel will be allocated 3.95 DAS (half of 7.9 DAS).

(6) DAS allocations and other management measures are specified for each scallop fishing year, which begins on March 1 and ends on February 28 (or February 29), unless otherwise noted.

(c) *Adjustments in annual DAS allocations.* Annual DAS allocations shall be established for 2 fishing years through biennial framework adjustments as specified in §648.55. If a biennial framework action is not undertaken by the Council and implemented by NMFS, the DAS allocations and Access Area trip allocations from the most recent fishing year shall remain in effect for the next fishing year. The Council may also recommend adjustments to DAS allocations through a framework action at any time.

(d) *End-of-year carry-over for open area DAS.* With the exception of vessels that held a Confirmation of Permit History as described in §648.4(a)(1)(J) for the entire fishing year preceding the carry-over year, limited access vessels that have unused Open Area DAS on the last day of February of any year may carry over a maximum of 10 DAS,

not to exceed the total Open Area DAS allocation by permit category, into the next year. DAS carried over into the next fishing year may only be used in Open Areas. DAS sanctioned vessels will be credited with unused DAS based on their unused DAS allocation, minus total DAS sanctioned.

(e) *Accrual of DAS.* All DAS fished shall be charged to the nearest minute. A vessel carrying an observer and authorized to be charged fewer DAS in Open Areas based on the total available DAS set aside under paragraph (g)(1) of this section shall be charged at a reduced rate as specified in paragraph (g)(1) of this section.

(f) *Good Samaritan credit.* Limited access vessels fishing under the DAS program and that spend time at sea assisting in a USCG search and rescue operation or assisting the USCG in towing a disabled vessel, and that can document the occurrence through the USCG, will not accrue DAS for the time documented.

(g) *DAS set-asides—(1) DAS set-aside for observer coverage.* As specified in paragraph (b)(2) of this section, to help defray the cost of carrying an observer, 1 percent of the total DAS shall be set-aside from the total DAS available for allocation, to be used by vessels that are assigned to take an at-sea observer on a trip other than an Area Access Program trip. The DAS set-aside for observer coverage is 118 DAS for the 2008 fishing year, and 141 DAS for the 2009 fishing year. If the IFQ program implementation is delayed beyond March 1, 2009, the 2009 DAS set-aside for observer coverage will be 124 DAS. Vessels carrying an observer shall be compensated with reduced DAS accrual rates for each trip on which the vessel carries an observer. For each DAS that a vessel fishes for scallops with an observer on board, the DAS shall be charged at a reduced rate based on an adjustment factor determined by the Regional Administrator on an annual basis, dependent on the cost of observers, catch rates, and amount of available DAS set-aside. The Regional Administrator shall notify vessel owners of the cost of observers and the DAS adjustment factor through a permit holder letter issued prior to the start of each fishing year. The number of

DAS that are deducted from each trip based on the adjustment factor shall be deducted from the observer DAS set-aside amount in the applicable fishing year. Utilization of the DAS set-aside shall be on a first-come, first-served basis. When the DAS set-aside for observer coverage has been utilized, vessel owners shall be notified that no additional DAS remain available to offset the cost of carrying observers. The obligation to carry and pay for an observer shall not be waived due to the absence of set-aside DAS allocations.

(2) *DAS set-aside for research.* As specified in paragraph (b)(2) of this section, to help support the activities of vessels participating in certain research, as specified in § 648.56; the DAS set-aside for research is 235 DAS for the 2008 fishing year, and 282 DAS for the 2009 fishing year. If the IFQ program implementation is delayed beyond March 1, 2009, the 2009 DAS set-aside for research shall be 241 DAS. Vessels participating in approved research shall be authorized to use additional DAS in the applicable fishing year. Notification of allocated additional DAS shall be provided through a letter of authorization, or Exempted Fishing Permit issued by NMFS, or shall be added to a participating vessel's open area DAS allocation, as appropriate.

(h) *Annual Individual fishing quotas—(1) IFQ restriction.* For each fishing year of the IFQ program, a vessel issued an IFQ scallop permit may only harvest and land the total amount of scallop meats allocated in accordance with this subpart. Unless otherwise specified in this part, a vessel allocated scallop IFQ may not exceed the possession limits specified in § 648.52 on any trip.

(2) *Calculation of IFQ.* The total allowable catch allocated to IFQ scallop vessels, and the total allowable catch allocated to limited access scallop vessels issued IFQ scallop permits, as specified in paragraphs (a)(3)(ii) and (iii) of this section, shall be used to determine the IFQ of each vessel issued an IFQ scallop permit. Each fishing year, the Regional Administrator shall provide the owner of a vessel issued an IFQ scallop permit issued pursuant to § 648.4(a)(2)(ii) with the scallop IFQ for the vessel for the upcoming fishing year.

§ 648.53

50 CFR Ch. VI (10–1–08 Edition)

(i) *Individual fishing quota.* The IFQ for an IFQ scallop vessel shall be the vessel's contribution percentage as specified in paragraph (h)(2)(iii) of this section and determined using the steps specified in paragraphs (h)(2)(ii) of this section, multiplied by the TAC allocated to the IFQ scallop fishery, or limited access vessels issued an IFQ scallop permit, as specified in paragraphs (a)(3)(ii) and (iii) of this section.

(ii) *Contribution factor.* An IFQ scallop vessel's contribution factor is calculated using the best year, years active, and index factor as specified in paragraphs (h)(2)(ii)(A) through (C) of this section. A vessel's contribution factor shall be provided to the owner of a qualified limited access general category vessel following initial application for an IFQ scallop permit as specified in § 648.4(a)(2)(ii)(E), consistent with confidentiality restrictions of the Magnuson-Stevens Act specified at 16 U.S.C. 1881a.

(A) *Best year determination.* An eligible IFQ scallop vessel's highest scallop landings in any scallop fishing year that the vessel was issued a general category scallop permit between March 1, 2000, and November 1, 2004, shall be determined using NMFS dealer reports. Scallop landings in the 2004 fishing year must have occurred on or before November 1, 2004. If a dealer reported more than 400 lb (181.4 kg) of scallops landed on a trip, only 400 lb (181.4 kg) will be credited for that trip toward the best year calculation. For dealer reports that indicate clearly that the landings were bushels of in-shell scallops, a conversion of 8.33 lb (3.78 kg) of scallop meats per bushel shall be used to calculate meat-weight, up to a maximum of 400 lb (181.4 kg) per trip.

(B) *Years active.* For each eligible IFQ scallop vessel, the total number of scallop fishing years during the period March 1, 2000, through November 1, 2004, in which the vessel had a general category scallop permit and landed at least 1 lb (0.45 kg) of scallop meats, or in-shell scallops, shall be counted as active years based on NMFS dealer reports. Scallop landings in the 2004 fishing year must have occurred on or before November 1, 2004.

(C) *Index to determine contribution factor.* For each eligible IFQ scallop ves-

sel, the best year as determined pursuant to paragraph (a)(2)(ii)(E)(1) of this section shall be multiplied by the appropriate index factor specified in the following table, based on years active as specified in paragraph (a)(2)(ii)(E)(2) of this section. The resulting contribution factor shall determine its IFQ for each fishing year based on the allocation to general category scallop vessels as specified in § 648.53(a)(2) and the method of calculating the IFQ provided in § 648.53(h).

Years active	Index factor
1 .....	0.75
2 .....	0.875
3 .....	1.0
4 .....	1.125
5 .....	1.25

(D) *Contribution factor example.* If a vessel landed 48,550 lb (22,022 kg) of scallops in its best year, and was active in the general category scallop fishery for 5 years, the vessel's contribution factor is equal to 60,687 lb (27,527 kg) (48,550 lb (22,022 kg) \* 1.25).

(iii) *Contribution percentage.* A vessel's contribution percentage will be determined by dividing its contribution factor by the sum of the contribution factors of all vessels issued an IFQ scallop permit. The sum of the contribution factors shall be determined when all IFQ scallop vessels are identified. Continuing the example in paragraph (h)(1)(ii)(D) of this section, the sum of the contribution factors for 380 IFQ scallop vessels is estimated for the purpose of this example to be 4.18 million lb (1,896 mt). The contribution percentage of the above vessel is 1.45 percent (60,687 lb (27,527 kg) / 4.18 million lb (1,896 mt) = 1.45 percent).

(iv) *Vessel IFQ Example.* Continuing the example in paragraphs (h)(1)(ii)(D) and (h)(1)(iii) of this section, with a TAC allocated to IFQ scallop vessels estimated for this example to be equal to 2.5 million lb (1,134 mt), the vessel's IFQ would be 36,250 lb (16,443 kg) (1.45 percent \* 2.5 million lb (1,134 mt)).

(3) *IFQ ownership restrictions—(i) IFQ scallop vessel IFQ cap.* (A) Unless otherwise specified in paragraph (h)(3)(i)(B) and (C) of this section, a vessel issued an IFQ scallop permit or confirmation of permit history shall not be issued

more than 2 percent of the TAC allocated to the IFQ scallop vessels as described in paragraphs (a)(3)(ii) and (iii) of this section.

(B) A vessel may be initially issued more than 2 percent of the TAC allocated to the IFQ scallop vessels as described in paragraphs (a)(3)(ii) and (iii) of this section, if the initial determination of its contribution factor specified in accordance with § 648.4(a)(2)(ii)(E) and paragraph (h)(2)(ii) of this section, results in an IFQ that exceeds 2 percent of the TAC allocated to the IFQ scallop vessels as described in paragraphs (a)(3)(ii) and (iii) of this section. A vessel that is allocated an IFQ that exceeds 2 percent of the TAC allocated to the IFQ scallop vessels as described in paragraphs (a)(3)(ii) and (iii) of this section in accordance with this paragraph (h)(3)(i)(B), may not transfer IFQ to that vessel, as specified in paragraph (h)(5) of this section.

(C) A vessel initially issued a 2008 IFQ scallop permit or confirmation of permit history, or issued or renewed a limited access scallop permit or confirmation of permit history for a vessel in 2009 and thereafter, in compliance with the ownership restrictions in paragraph (h)(3)(i)(A) of this section, are eligible to renew such permits(s) and/or confirmation(s) of permit history, regardless of whether the renewal of the permits or confirmations of permit history will result in the 2-percent ownership restriction being exceeded.

(ii) *IFQ ownership cap.* (A) For any vessel acquired after June 1, 2008, a vessel owner is not eligible to be issued an IFQ scallop permit for the vessel, and/or a confirmation of permit history, and is not eligible to transfer IFQ to the vessel, if, as a result of the issuance of the permit and/or confirmation of permit history, or IFQ transfer, the vessel owner, or any other person who is a shareholder or partner of the vessel owner, will have an ownership interest in more than 5 percent of the TAC allocated to the IFQ scallop vessels as described in paragraphs (a)(3)(ii) and (iii) of this section.

(B) Vessel owners who were initially issued a 2008 IFQ scallop permit or confirmation of permit history, or who were issued or renewed a limited access scallop permit or confirmation of per-

mit history for a vessel in 2009 and thereafter, in compliance with the ownership restrictions in paragraph (h)(3)(ii)(A) of this section, are eligible to renew such permits(s) and/or confirmation(s) of permit history, regardless of whether the renewal of the permits or confirmations of permit history will result in the 5-percent ownership restriction being exceeded.

(C) Having an ownership interest includes, but is not limited to, persons who are shareholders in a vessel owned by a corporation, who are partners (general or limited) to a vessel owner, or who, in any way, partly own a vessel.

(iii) *Limited access scallop vessels that have been issued an IFQ scallop permit.* The IFQ scallop vessel IFQ cap and IFQ ownership cap specified in this paragraph (h)(3) do not apply to limited access scallop vessels that are also issued a limited access general category scallop permit because such vessels are already subject to an ownership limitation, as specified in § 648.4(a)(2)(i)(M).

(4) *IFQ cost recovery.* A fee, not to exceed 3 percent of the ex-vessel value of IFQ fish harvested, shall be collected to recover the costs associated with management, data collection, and enforcement of the IFQ program. The owner of a vessel issued an IFQ scallop permit and subject to the IFQ program specified in this paragraph (h), shall be responsible for paying the fee as specified by NMFS in this paragraph (h)(4). An IFQ scallop vessel shall incur a cost recovery fee liability for every landing of IFQ scallops. The IFQ scallop permit holder shall be responsible for collecting his/her own fee for all of his/her IFQ scallop landings, and shall be responsible for submitting this payment to NMFS once per year.

(i) *Cost recovery fee determination.* The ex-vessel value of scallops shall be determined as an average of the ex-vessel value, as determined by Northeast Federal dealer reports, of all IFQ scallops landed between March 1 and September 30 of the initial year of the IFQ scallop program, and from October 1 through September 30 of each year thereafter.

(ii) *Fee payment procedure.* On or about October 31 of each year, NMFS shall mail a cost recovery bill to each

IFQ scallop permit holder for the previous cost recovery period. An IFQ scallop permit holder who has incurred a fee must pay the fee to NMFS by January 1 of each year. Cost recovery payments shall be made electronically via the Federal web portal, *www.pay.gov*, or other Internet sites as designated by the Regional Administrator. Instructions for electronic payment shall be available on both the payment Web site and the paper bill. Payment options shall include payment via a credit card, as specified in the cost recovery bill, or via direct automated clearing house (ACH) withdrawal from a designated checking account. Payment by check may be authorized by NMFS if it has determined that electronic payment is not possible (for example, if the geographical area of an individual(s) is affected by catastrophic conditions).

(iii) *Payment compliance.* An IFQ scallop permit holder that has incurred an IFQ cost recovery fee must pay the fee to NMFS by January 1 of each year. If the cost recovery payment, as determined by NMFS, is not made by January 1, NMFS may deny the renewal of the IFQ scallop permit until full payment is received. If, upon preliminary review of the accuracy and completeness of a fee payment, NMFS determines the IFQ scallop permit holder has not paid the full amount due, NMFS shall notify the IFQ scallop permit holder by letter. NMFS shall explain the discrepancy and provide the IFQ scallop permit holder 30 days to either pay the amount specified by NMFS or to provide evidence that the amount paid was correct. If the IFQ scallop permit holder submits evidence in support of his/her payment, NMFS shall determine if there is any remaining disagreement as to the appropriate IFQ fee, and prepare a Final Administrative Determination (FAD). The FAD shall set out the facts, discuss those facts within the context of the relevant agency policies and regulations, and make a determination as to the appropriate disposition of the matter. A FAD shall be the final agency action, and, if the FAD determines that the IFQ scallop permit holder is out of compliance, the FAD shall require payment within 30 days. If a FAD is not

issued until after the start of the fishing year, the IFQ scallop permit holder may be authorized to fish temporarily by the Regional Administrator until the FAD is issued, at which point the permit holder shall have 30 days to comply with the terms of the FAD or the IFQ scallop permit shall not be issued until such terms are met. If NMFS determines that the IFQ scallop permit holder owes additional fees for the previous cost recovery period, and the IFQ scallop permit has already been renewed, NMFS shall issue a FAD, at which point the permit holder shall have 30 days to comply with the terms of the FAD or NMFS may withdraw the issuance of the IFQ scallop permit until such terms are met. If such payment is not received within 30 days of issuance of the FAD, NMFS shall refer the matter to the appropriate authorities within the U.S. Department of the Treasury for purposes of collection, and no IFQ permit held by the permit holder may be renewed until the terms of the FAD are met. If NMFS determines that the conditions of the FAD have been met, the IFQ permit holder may renew the IFQ scallop permit(s). If NMFS does not receive full payment prior to the end of the fishing year, the IFQ scallop permit shall be considered voluntarily abandoned, pursuant to § 648.4(a)(2)(ii)(K), unless otherwise determined by the Regional Administrator.

(5) *Transferring IFQ*—(i) *Temporary IFQ transfers.* Subject to the restrictions in paragraph (h)(5)(iii) of this section, the owner of an IFQ scallop vessel not issued a limited access scallop permit may temporarily transfer one or more entire IFQs to or from another IFQ scallop vessel. Temporary IFQ transfers shall be effective only for the fishing year in which the temporary transfer is requested and processed. The Regional Administrator has final approval authority for all temporary IFQ transfer requests.

(ii) *Permanent IFQ transfers.* Subject to the restrictions in paragraph (h)(5)(iii) of this section, the owner of an IFQ scallop vessel not issued a limited access scallop permit may transfer one or more entire IFQs permanently to or from another IFQ scallop vessel. A vessel permanently transferring its

IFQ to another vessel must transfer all of its Federal limited access permits for which it is eligible to the transferee vessel in accordance with the vessel replacement restrictions under § 648.4, or permanently cancel such permits. Any such transfer cannot be limited in duration and is permanent unless the IFQ is subsequently transferred to another IFQ scallop vessel, other than the originating IFQ scallop vessel, in a subsequent fishing year. The Regional Administrator has final approval authority for all IFQ transfer requests.

(iii) *IFQ transfer restrictions.* The owner of an IFQ scallop vessel not issued a limited access scallop permit may transfer entire IFQ allocations only. The owner of an IFQ scallop vessel not issued a limited access scallop permit that has fished under its IFQ in a fishing year may not transfer that vessel's IFQ to another IFQ scallop vessel in the same fishing year. A transfer of an IFQ may not result in the sum of the IFQs on the receiving vessel exceeding 2 percent of the total allowable catch allocated to IFQ scallop vessels. Limited access scallop vessels that are also issued an IFQ scallop permit may not transfer or receive IFQ from another IFQ scallop vessel, either temporarily or permanently. A vessel permanently transferring its IFQ to another vessel must transfer all of its Federal limited access permits for which it is eligible to the transferee vessel in accordance with the vessel replacement restrictions under § 648.4, or permanently cancel such permits.

(iv) *Application for an IFQ transfer.* The owner of vessels applying for a transfer IFQ must submit a completed application form obtained from the Regional Administrator. The application must be signed by both parties (transferor and transferee) involved in the transfer of the IFQ, and must be submitted to the NMFS Northeast Regional Office at least 30 days before the date on which the applicants desire to have the IFQ effective on the receiving vessel. The Regional Administrator shall notify the applicants of any deficiency in the application pursuant to this section. Applications may be submitted at any time during the scallop fishing year, provided the vessel transferring the IFQ to another vessel has

not utilized any of its own IFQ in that fishing year. Applications for temporary transfers received 45 days prior to the end of the fishing year may not be processed in time for a vessel to utilize the transferred IFQ prior to the expiration of the fishing year for which the IFQ transfer, if approved, would be effective.

(A) *Application information requirements.* An application to transfer IFQ must contain at least the following information: Transferor's name, vessel name, permit number, and official number or state registration number; transferee's name, vessel name, permit number and official number or state registration number; total price paid for purchased IFQ; signatures of transferor and transferee; and date the form was completed. Information obtained from the transfer application will be held confidential, and will be used only in summarized form for management of the fishery. If applicable, an application for a permanent IFQ transfer must be accompanied by verification, in writing, that the transferor either has requested cancellation of all limited access Federal fishing permits, or has applied for a transfer of all of its limited access permits in accordance with the vessel replacement restrictions under § 648.4.

(B) *Approval of IFQ transfer applications.* Unless an application to transfer IFQ is denied according to paragraph (h)(5)(iii)(C) of this section, the Regional Administrator shall issue confirmation of application approval to both parties involved in the transfer within 45 days of receipt of an application.

(C) *Denial of transfer application.* The Regional Administrator may reject an application to transfer IFQ for the following reasons: The application is incomplete; the transferor or transferee does not possess a valid limited access general category permit; the transferor's or transferee's vessel or IFQ scallop permit has been sanctioned, pursuant to an enforcement proceeding; the transferor's or transferee's vessel is prohibited from fishing; the transfer will result in the transferee's vessel having an allocation that exceeds 2 percent of the total allowable catch allocated to IFQ scallop vessels;

the transfer will result in the transferee having ownership of general category scallop allocation that exceeds 5 percent of the total allowable catch allocated to IFQ scallop vessels; or any other failure to meet the requirements of this subpart. Upon denial of an application to transfer IFQ, the Regional Administrator shall send a letter to the applicants describing the reason(s) for the rejection. The decision by the Regional Administrator is the final agency decision and there is no opportunity to appeal the Regional Administrator's decision.

[73 FR 20123, Apr. 14, 2008, as amended at 73 FR 30804, May 29, 2008]

**§ 648.54 State waters exemption.**

(a) *Limited access scallop vessel exemption*—(1) *DAS requirements.* Any vessel issued a limited access scallop permit is exempt from the DAS requirements specified in § 648.53(b) while fishing exclusively landward of the outer boundary of a state's waters, provided the vessel complies with paragraphs (d) through (g) of this section, and the notification requirements of § 648.10(e).

(2) *Gear and possession limit restrictions.* Any vessel issued a limited access scallop permit that is exempt from the DAS requirements of § 648.53(b) under paragraph (a) of this section, and that has complied with the notification requirements of § 648.10(e), is also exempt from the gear restrictions specified in § 648.51(a), (b), (e)(1) and (e)(2), and the possession restrictions specified in § 648.52(a), while fishing exclusively landward of the outer boundary of the waters of a state that has been issued a state waters exemption, provided the vessel complies with paragraphs (d) through (g) of this section.

(b) *LAGC scallop vessel gear and possession limit restrictions.* Any vessel issued an LAGC scallop permit is exempt from the gear restrictions specified in § 648.51(a), (b), (e)(1), and (e)(2), and the applicable possession limits specified in § 648.52, while fishing exclusively landward of the outer boundary of the waters of a state that has been issued a state waters exemption, provided the vessel complies with paragraphs (d) through (g) of this section.

(c) *State eligibility for exemption.* (1) A state may be eligible for the state wa-

ters exemption if it has a scallop fishery and a scallop conservation program that does not jeopardize the biomass and fishing mortality/effort limit objectives of the Scallop FMP.

(2) The Regional Administrator shall determine which states have a scallop fishery and which of those states have a scallop conservation program that does not jeopardize the biomass and fishing mortality/effort limit objectives of the Scallop FMP.

(3) Prior to Amendment 11 to the FMP, Maine, New Hampshire, and Massachusetts were determined by the Regional Administrator to have scallop fisheries and scallop conservation programs that do not jeopardize the biomass and fishing mortality/effort limit objectives of the FMP. States must re-submit information describing their scallop fishery conservation programs so that the Regional Administrator can determine if such states continue to have scallop fisheries and scallop conservation programs that do not jeopardize the biomass and fishing mortality/effort limit objectives of the FMP. In addition, these states must immediately notify the Regional Administrator of any changes in their respective scallop conservation program. The Regional Administrator shall review these changes and, if a determination is made that the state's conservation program jeopardizes the biomass and fishing mortality/effort limit objectives of the FMP, or that the state no longer has a scallop fishery, the Regional Administrator shall publish a rule in the FEDERAL REGISTER, in accordance with the Administrative Procedure Act, to eliminate the exemption for that state. The Regional Administrator may determine that other states have scallop fisheries and scallop conservation programs that do not jeopardize the biomass and fishing mortality/effort limit objectives of the FMP. In such case, the Regional Administrator shall publish a rule in the FEDERAL REGISTER, in accordance with the Administrative Procedure Act, to provide the exemption for such states.

(d) *Notification requirements.* Vessels fishing under the exemptions provided by paragraph(s) (a)(1) and/or (a)(2) of this section must notify the Regional
